

PROTECTING YOUR PEOPLE, YOUR BUSINESS, AND YOUR TIME
SINCE 1993

EVENT SERVICES DIVISION

AWP's Event Services Division provides full-scale traffic management for:

- Sporting Events
- School/Community Events
- Street Festivals
- Races/Competitions (Pedestrian or Others)
- Parades
- Concerts
- Anything else that requires temporary traffic control services or equipment!

Our experienced Event Services Division is able to develop a traffic control plan specific to your needs, ensuring safe, compliant, and efficient traffic flow to, from, and around your event. AWP's professional team provides delivery of signs and equipment, set up and tear down. AWP will also maintain temporary traffic control throughout the duration of your event. We work closely with our clients while coordinating with police and local government authorities to ensure the safe and smooth orchestration of traffic, services, and flow for event attendees, participants, volunteers and workers.

AWP Is a Proud Partner of:

OUR COMMITMENT TO SAFETY:

Area Wide Protective was founded with a vision to provide the best safety services in the industry, and protect our clients, our team, and the general public with safe, compliant, professional traffic control. We protect clients with 25 million dollars in liability coverage on every project. As a company, and as a team, AWP is dedicated to safety in everything we do.

PROTECT YOUR PEOPLE

PROTECT YOUR BUSINESS

PROTECT YOUR TIME

PROTECT YOUR PEOPLE

The protection of people is our first priority at AWP. We ensure safety through a three-pronged approach.

SAFE TEAMS

Each and every member of our traffic control team is 100% certified, and receives:

- ATSSA Flagger Training and Certification
- AWP "Injury Free" Safety Training
- Drug-Free Workplace Training
- Defensive Driving Training
- Maneuverability Training
- Trailer Safety Training
- Basics of Temporary Traffic Control
- CPR, AED and Basic First Aid Certification

AWP is proud to provide the most comprehensive safety training in the industry. We even reward our team members with a Safety Bonus Program.

SAFE WORK ZONES

Thanks to our rigorous commitment to safety, you'll see a reduction in accidents and injuries. We focus on your job site 100% of the time, including safety inspections and strict adherence to all rules and regulations. This keeps your people working safely.

SAFE EQUIPMENT

AWP provides safe, compliant, high-quality traffic control equipment that meets or exceeds regulations. We maintain all equipment with a preventive maintenance program, including pre-and-post job safety inspections. In addition, our equipment is delivered and set up by our own highly trained and experienced traffic control professionals.

PROTECT YOUR BUSINESS

No one else in the industry protects your business like AWP.

LESS RISK

Traffic control is our core business, and we are proud leaders in the field. When you select AWP, you can rest assured that your employees will return home safely, and your work zones will not be closed down due to non-compliance. We support the rigorous training our traffic control specialists receive with thorough background checks and random drug testing, and carry the best insurance in the industry — all to minimize your risk.

MORE REACH

With more than 2,500 Traffic Control Specialists spread across 60+ locations, our 24/7 emergency response and disaster relief capabilities are unmatched in the industry. Our vast reach gives us the resourcefulness to react quickly to, and even anticipate, changes in your needs.

BETTER REPUTATION

Our unparalleled reputation makes us a winning worksite partner, and can provide leverage that helps you to secure jobs. We bring stability and longevity to every job we do, ensuring safe, professional work zones. AWP is adept at alleviating driver frustration, resulting in lower accident rates. In addition, our expertise and sterling reputation carries significant respect and facilitates great working relationships with regulators.

PROTECT YOUR TIME

Time is money. Protect both with AWP.

RELIABLE PROCESSES

Through extensive experience and training, we have streamlined our processes, including centralized estimating and scheduling, timely, accurate invoices, police procurement and processes. That means your work is done right the first time, every time. Our easy access customer portal is just a click away, available to you 24/7, giving you the ability to follow your project's progress in real time. You can always count on AWP.

RELIABLE PERFORMANCE

When we say, "reliable performance," what does that mean to you? To us, it means our traffic control professionals are always on time, with the proper equipment for the job, capably guided by one of our project managers. You'll have the same expert crew for the duration of your job and everything is backed up by the best people, equipment, and support in the industry.

RELIABLE PARTNERS

We think of ourselves as your partners — we work with you, not for you. Think of us as an extension of your team, with a deep knowledge of your business. We commit to you as a 24/7 operation, with an experienced local management team that guarantees a prompt response to any issues that may arise.
