

THE SECRET INGREDIENT FOR EVENT SUCCESS

Seamless, Turnkey Traffic Control

- Endurance/running events – from 5Ks to ultra-marathons
- Movie/film production crews
- Diverse sporting events
- Parades
- High-traffic school events
- Street, music and food festivals
- And more

What's at Stake?

Your reputation, future attendance, and your bottom line are all on the line. But what about traffic control? If participants and attendees aren't safe, none of the rest matters.

As your trusted event partner, we're here to make your life easier and protect your event.

It's Event Time!

All the pre-planning pays off! Our team will be in place to ensure a safe and secure event. If something unexpected happens - our responsive event team will adjust quickly. Event participants will never know.

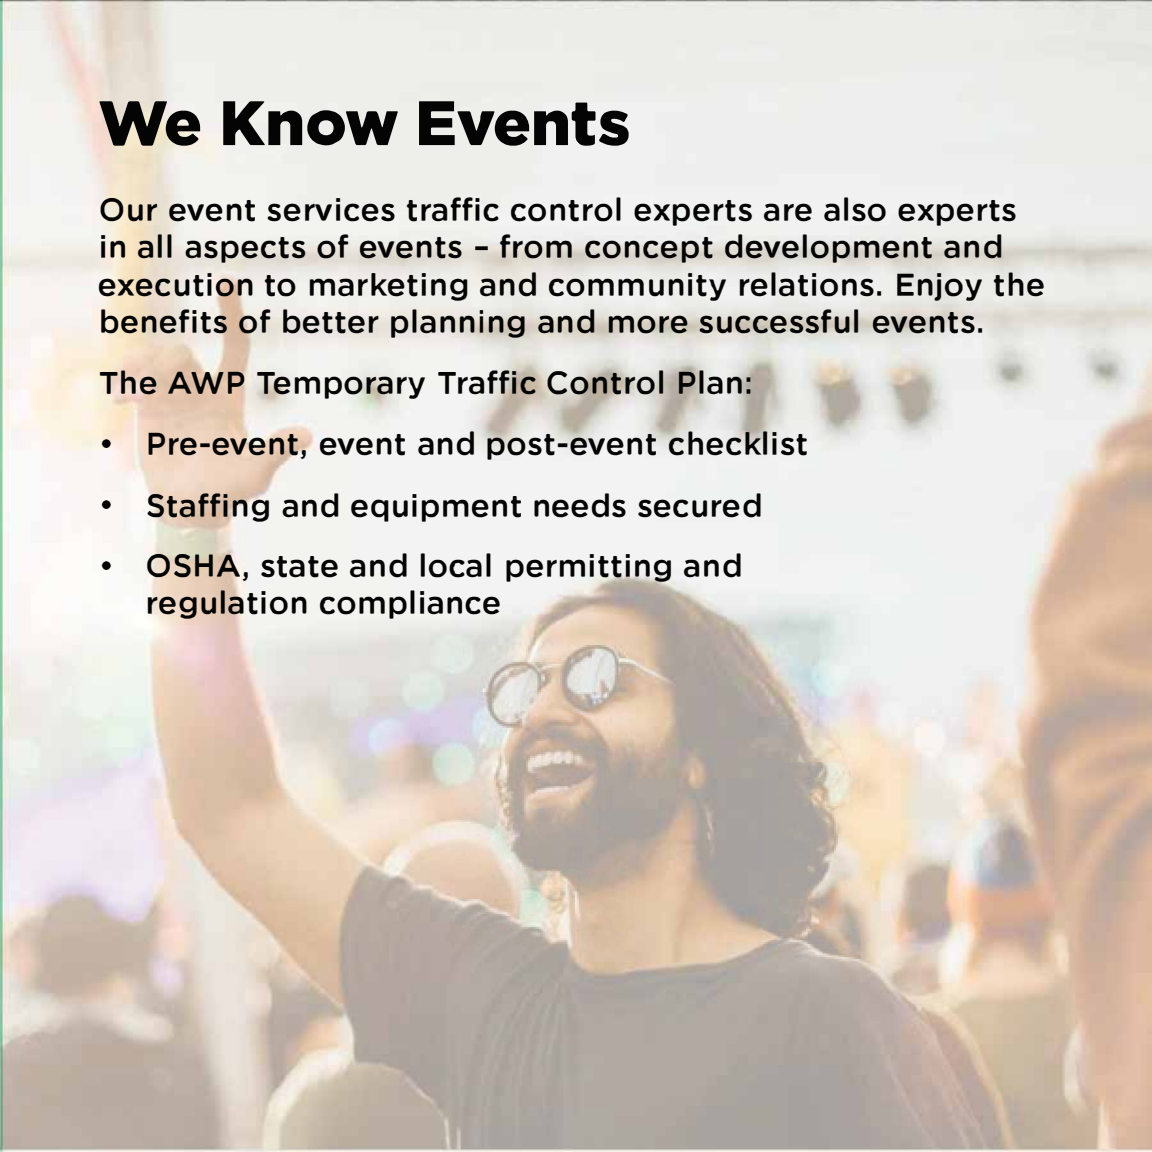

We Know Events

Our event services traffic control experts are also experts in all aspects of events - from concept development and execution to marketing and community relations. Enjoy the benefits of better planning and more successful events.

The AWP Temporary Traffic Control Plan:

- Pre-event, event and post-event checklist
- Staffing and equipment needs secured
- OSHA, state and local permitting and regulation compliance

Peace of Mind – 5 Steps to Protect Your Event

1. Plan well ahead.
2. Hire trained professionals, not volunteers.
3. Reserve safe, compliant equipment well in advance.
4. Reserve traffic control specialists ahead of time.
5. Use our expertise onsite during the event.

The AWP Difference

- On-target planning: Our experts know traffic control and events.
- We provide turnkey service so you can do what you do best.
- Safety is priority No. 1.
- On-time performance - responsive and flexible.
- Liability insurance protection for added security.
- Wide selection of the latest, regulation-compliant equipment.

CAUTION
Narrow
Road Ahead

Traffic Control Is More Important Than Ever

- Municipalities are making event owners responsible for traffic control.
- Police don't have time for set-up and maintenance.
- Local governments require temporary traffic control plans.
- Liability is an increasing concern.
- Regulations continue to change.

Turnkey Event Services: We Take Care of It All for You

- Temporary Traffic Control Plan (TTCP) and traffic design
 - A plan for ingress and egress
 - Race course layout
- Traffic management services with trained professionals
- Equipment rental, delivery, and/or installation, and removal based on your specific needs (message boards, barricades, cones and more)
- Coordination and compliance with police and local governments
- Entire course set-up and removal support for running and cycling events
 - Necessary signage, marking and staffing
- Parking assistance
- Crowd control assistance

Your Event Should Be Memorable - For All the Right Reasons

The thrill of the race. The unbelievable music. The great food. No matter the event, it should be fun and exciting for the thousands or hundreds of thousands of people who come. That means traffic control should be almost invisible - so seamless that people hardly notice. They just get to where they want to go, smoothly and safely. That's our goal for you.

Connect with Our Event Specialists!

330-312-1275

800-343-2650 ext. EVENT#(38368)

Let's talk early so you can focus on the event itself.

We'll guide you through critical steps you can take well ahead of your event, and we'll remain onsite during the event to help keep everything on track and ensure a happier and safer experience for your participants.
