As one of the most reputable, most efficient and largest traffic control companies in North America, AWP leads the way in providing safe and secure traffic control services for our clients and the communities we serve.

6,550 Protectors Strong

AWP employs more than 6,550 Protectors in over 150 facilities, securing more than 2,000 work zones every day. Demand for AWP's professional traffic control and flagging services continues to grow, and our customers know we can provide the quality and quantity of traffic control resources they need to stay safe in their work zones.

Rigorous Standards

Each facility, team and Protector is engaged and inspired to deliver excellence. Our commitment to ongoing safety training and on-time metrics for each Protector ensures AWP delivers safe, reliable, and compliant traffic control and flagging services on every job.

Record Storm Response

Over the years, AWP crews packed up and responded to thousands of calls for emergency traffic control. In a specific case, more than 500 Protectors took action. Our AWP team has the breadth and experience to mobilize quickly to keep your crews safely working in these situations.

Reliable Supplier-of-Choice

Our customers rely on us and we take that responsibility seriously. Whether it's our committed local leadership, 24/7 scheduling center, accurate reporting and invoicing, or reliable Protectors in the work zone, they can count on AWP to meet their needs.

Here's what our customers are saying about AWP:

"I recently had a complicated job on the corner of an intersection with a large volume of commercial traffic. I called AWP and talked through what I needed. They took the time to understand how involved this location was going to be. AWP's knowledge and customer service far exceed any other company I've used in the last 15 years."

Karen S. – Utility Company

"I wanted to commend the supervision that you have onsite at our work zone. Your crew has been a tremendous benefit to our team regarding safety. Due to these individuals, we will continue to promote AWP as a premier source of professionals to assist us with our endeavors to complete our utility projects."
